MALICE FEATURES

At the start of a monster's turn, you can spend malice to activate a Malice feature.

Brutal Effectiveness

The monster digs into the enemy's weak spot. The next ability the monster uses with a potency has its potency increased by 1.

Goblin Mode • 3 Malice

Each goblin gains a +2 bonus to speed until the end of the round.

Grab Iron Ball • 3+ Malice

For every 3 Malice spent, one non-minion bugbear acting this turn grabs an iron ball and can use a maneuver to throw it at a creature within 5 squares of them. The creature takes damage equal to 8 – the number of squares the iron ball was thrown, and M<1 slowed (save ends).

Grab Javelin • 5+ Malice

For every 5 Malice spent, one non-minion bugbear acting this turn grabs a javelin and can use a maneuver to throw it at a creature within 5 squares of them. The creature takes damage equal to 12 – the number of squares the javelin was thrown, and M<1 bleeding (save ends). While a creature is bleeding this way, any ally of the bugbear within 2 squares of them can use a free maneuver to pull the bleeding creature up to 2 squares.

Malicious Strike

The monster pours all their animosity into their attack. Their next strike deals additional damage to one target equal to their highest characteristic. The damage increases by 1 for every additional malice spent on this feature (to a maximum total of three times their highest characteristic). This feature can't be used two rounds in a row.

ENCOUNTER CONDITIONS

SUCCESS CONDITION
